

Instructions for Tellagami App

From the opening screen, tap Create.

Tap the Character icon on the left so you can Customize Your Character.

- Choose the Gender. Female or Male.
- Tap Skin Tone to change the skin to the desired tone.

- Tap Eyes to change the color.
- Tap Head to change the size of the character's head.
- Tap Hair to change the character's hair style and color.
- Tap Top to change the character's shirt style and color.
- Tap Bottom to change the character's pant style and color.
- Tap Shoes to change the character's shoe style and color.
- Give your character some attitude with Emotions.

Tap Background and there are 3 options.

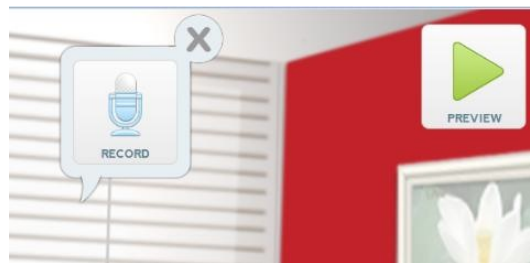

- Take Photo will use the iPad camera to automatically insert the picture into Tellagami.
- From Library will use an existing picture or a picture you get from the internet.
*** To get a picture from the internet, hold your finger on the picture until the option comes up to Save Image. Tap Save Image and the picture will be placed in Photos on the iPad.
- Use Ours will allow you to select some pre-made backgrounds.
- You can move the character to a new position by holding and dragging.
You can resize the character by pinching two fingers together to make it smaller or expanding two fingers to make it larger.
- There are 2 ways to record the narration. You can Record your own voice or you can Type in text and choose a voice.

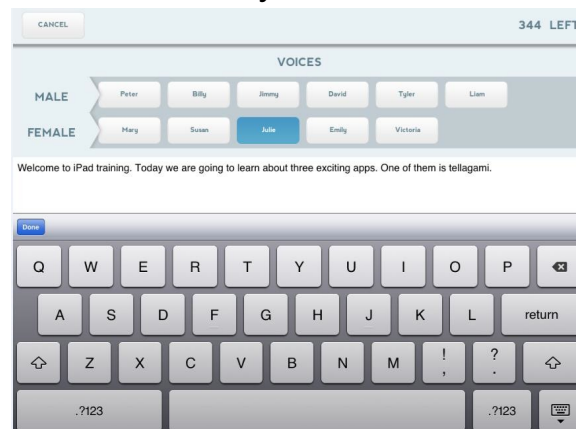

- Record your own voice. Speak loudly and clearly. Tap the Record button. A timer shows the length of your recording. You can record for 30 seconds. Tap Stop to stop recording.

- Tap Preview to listen to the recording. If you need to redo the recording, tap Record with the X in the corner and record again.

- Type your text into the open area. *** NOTE: you must be on the internet for this option to work.

- You may enter a total of 450 characters. The amount of remaining characters appears in the upper right corner.
- Then, decide on which Voice you want to use.
- Tap Done.

- Saving your Gami. When you are satisfied with your presentation, tap the Share icon. Tap Save and your Gami will be saved in
- Photos, Albums.
- Depending on your computer settings, you may be able to transfer the Gami to your computer through the iPad cable.
